

Reasons to homeschool

- ❖ Dissatisfaction with the traditional system
- ❖ School-related incidents
- ❖ Excessive (school-related stress) or insufficient challenges regarding school structure, processes, and methodologies
- ❖ Health reasons/illness
- ❖ Beliefs or philosophies
- ❖ Unmet special needs

Fear, hysteria, or a sense of urgency should not be among the reasons, as they will always leave you feeling insecure and questioning whether you are doing it for the right reasons. Nor is it a decision to be made hastily; it should be well-considered and carefully weighed.

The most important reason is that they are your children, your responsibility, your happiness and that you will be doing the most important job of your life.
